Dockets Management Branch (HFA-305)  
Docket # 02N-0466 Food & Drug Administration  
5630 Fishers Lane Room 7067  
Rockville, Maryland, 20852  
DEC -6 AM '09

To Whomever It May Concern;

We are opposed to the prospect of  
using children as guinea pigs for testing  
of a Smallpox Vaccine.

America has been far removed from  
its roots as a Christian Nation but to  
its christian founders, the christian  
concept that the human body is a  
temple of the Holy Spirit was a sacred  
part of its creed. Christ even spoke  
of His Body in this concept.

My own mother nearly died in her  
late teens from the effects of a small-  
pox vaccination required by her  
Taylor Shop employer back in the early  
1900's and she stood firmly against school  
authorities during my youth, and  
successfully, to prevent my brothers  
and sisters and myself from this form  
of monkey business.

J M. J

Tampering with the health of a few  
children to prove a medication that  
may never be needed is immoral.  
Let us have none of it.

Sincerely Yours

Bernard + Rita Brueggemann
